

Front-end developer with seven years shipping product UIs and lifecycle messaging. React, Next.js, TypeScript, and a design background that means I ship pixel-precise to spec — component-driven development, accessibility, performance and SEO from Figma to production. Most recently at Prezi, where I automated front-end production with Claude Code and Cursor, cutting implementation time from 3–8h to under 15 minutes per campaign.

00 EXPERIENCE

Front-end Developer · Lifecycle UI

Jun 2024 — Jun 2026

Prezi · Remote, Portugal

- Hand-coded responsive UIs in HTML/CSS, Liquid and JavaScript — pixel-precise to Figma specs across email and in-app surfaces.
- Built the **AI pipeline** that ships components to production: Claude writes, Cursor assembles, Braze ships — production cycle from 3–8h to under 15 min.
- Improved maintainability by standardizing reusable components and development patterns across lifecycle campaigns.
- Cross-client QA through Litmus (Gmail, Outlook, Apple Mail). Accessibility checks. Dark mode and mobile-first rendering.
- Ran A/B tests at **3M+ sends per arm**. Measurement and iteration loop in Hex, winners back into the ongoing lifecycle.

Web Designer & Developer

Dec 2023 — Jun 2024

Hakkoda · Remote, Portugal · 6-month contract

- Translated Figma designs into responsive production websites using semantic HTML, SEO fundamentals and performance best practices.
- Built and shipped the marketing site end to end on WordPress (Figma, HubSpot), modeling and maintaining content directly in the CMS.

Front-end Engineer · Designer

2021 — 2023

Pier · Remote, Brazil

- Built React + DatoCMS landing pages as reusable component systems for quarterly OKRs — designed in Figma, coded end to end, with scroll and hover micro-interactions.
- Pier × Tinder Carnival co-marketing: React landing page and visual system — **5M+ ad impressions in 7 days**.
- Shipped AI-generated ad creatives in production for auto and smartphone insurance: **1M+ impressions/week** per campaign.
- Worked next to content, engineering and PMs in a fast-moving acquisition team.

Web Developer — Freelance

2020 — present

Brazil · Portugal · Germany

- Web projects from Figma to deployment for international clients — React, Next.js, Node, WordPress.

01 STACK

FRONT-END

React · Next.js · TypeScript · JavaScript · Semantic HTML · Modern CSS · CSS architecture · Component-driven development · Tailwind CSS · Responsive UI · Accessibility · SEO fundamentals · Cross-browser & device · Node.js · Performance

DESIGN

Figma · Design systems · Component architecture · Design tokens · Motion · Adobe Creative Cloud

AI & WORKFLOW

Claude · Claude Code · Cursor · Prompt engineering · Agentic workflows · Figma → code

CMS & CONTENT

WordPress · DatoCMS · Content modeling · Content migrations

LIFECYCLE MESSAGING

Braze · Liquid · In-app messaging · Litmus · Cross-client QA · A/B testing · Hex

02 EDUCATION & BACKGROUND

B.A. Industrial Design

UniverCidade · Rio de Janeiro · 2007–2010

Artist Assistant · Contemporary Art

Luiz Zerbini, Luiz Roque & others · Rio de Janeiro · 2015–2020

Full-stack Coding Bootcamp

Le Wagon · Lisbon · 2020

The Web Developer Bootcamp

Udemy · 2019
