Design engineer with seven years bridging visual design and front-end engineering, grounded in a B.A. in Industrial Design. Most recently at Prezi, I built the AI pipeline that ships pixel-precise UIs from brief to production in under 15 minutes (Claude Code → Cursor → Braze). I own both halves: visual judgment and the React/TypeScript that ships it. Before Prezi, React + DatoCMS at Pier: +5M ad impressions in 7 days.

9478F0

- **Design Engineering:** Figma to production, design systems, component architecture, design tokens, motion and micro-interactions
- **Front-End Engineering:** React, TypeScript, Next.js, HTML/CSS, Tailwind, responsive and accessible UI
- **Lifecycle Messaging:** Braze, Liquid, in-app messaging, Litmus cross-client QA, dark mode, mobile-first rendering
- **AI-Assisted Development:** Claude Code, Cursor, agentic pipelines for Figma-to-code and Figma-to-production workflows

- **Prezi** **Remote, Portugal**
Jun 2024–Jun 2026
Email Front-End Developer
 - Designed and built the AI pipeline that runs lifecycle production end to end. Campaigns went from 3–8h to under 15 min.
 - Hand-coded email templates and in-app messages pixel-precise to Figma specs (HTML/CSS + Liquid + JavaScript).
 - Owned cross-client QA through Litmus. Accessibility checks. Performance tracked in Hex.
 - Open-sourced pipeline patterns at github.com/leovenom/ai-design-engineering.
- **Hakkoda** **Remote, Portugal**
Dec 2023–Jun 2024
Web Designer
 - Designed and coded the marketing site plus presentations and internal reports. WordPress, Figma, HubSpot.
 - Translated Figma designs into responsive production websites using semantic HTML and performance best practices.
- **Pier** **Remote, Brazil**
2021–2023
Front-end · Designer
 - Owned landing page, ad creative and brand surfaces for Pier x Tinder Carnival: +5M ad impressions in 7 days.
 - Built React + DatoCMS landing pages for quarterly OKRs alongside content, engineering and PMs.
 - Shipped AI-generated ad creatives embedded in Pier's brand system: +1M impressions/week per campaign.

- **Freelance** **Brazil, Portugal, Germany**
2020-present
Web Developer (Freelance)
 - Web projects from Figma to deployment. React, Next.js, Node, WordPress.
